Project description	
Motivation: Why do we act?	Our aim is to make a genuine difference in the fight against poverty.
Brief description of the action: What is it about?	Our initiative has three parts: <ol style="list-style-type: none"> 1. We pledge to live with 90% of our salary until retirement and to donate the rest. 2. The donations do not go to any project but rather to those poverty eradication projects which we honestly believe to be the most effective. 3. We make our pledge public in order to promote the idea that sharing part of our income is something normal and beautiful.
Measures: What has been done exactly?	Once per year, my wife and I (we signed the pledge jointly) <ol style="list-style-type: none"> 1. examine how much we earned in the previous year 2. go on www.givewell.org or on www.givingwhatwecan.org in order to find out about the most effective ways to fight against poverty 3. donate 10% of our income.
Mussten Widerstände überwunden werden? Wenn ja, welche?	<ol style="list-style-type: none"> 1. It is challenging to find the time for carefully assessing what might currently be the most effective projects to donate our money to. 2. Some people have the impression that this is all about making ourselves look noble whereas in reality it is simply and plainly about transferring resources to those who need them for liberating themselves from poverty.

Benefit: What can be the use of this action?	The initiative provides donated money for the purpose of fighting effectively against poverty.
Contribution to poverty reduction in the global south?	This is the aim of the initiative: To fight poverty in the global South through long-term financial donations to the most effective projects.
What results have been achieved in practice?	https://www.givingwhatwecan.org/get-involved/myths-about-aid/#myth-3-the-problem-is-so-large-my-giving-can-make-no-real-difference
